

HABILITATION COMMITTEE REPORT

from date of 30 07 2012

Name and Surname of the candidate

Ion Alina Catrinel

Title of the habilitation thesis:

Carbon-based nanomaterials. Environmental application

The name of institution where public presentation of the habilitation thesis took place

UNIVERSITATEA POLITEHNICA BUCUREȘTI

Strength points of habilitation thesis

well documented report, covering a large number of topics.
Clear and didactic presentation of the report.
The report describes valuable results on analytical chemistry at the interface toward nanomaterials and nanotechnology.

Weak points of habilitation thesis

The perspectives and career plan might be developed following more precise topics, also including management and financial issues of the research activity.

Number of votes for acceptance

3

Number of votes for rejection

-

The results of voting. Observations / Conclusions

The commission accepts the thesis and proposes to grant the habilitation certificate.

Name and Surname of president of the habilitation committee. RAHARESCU MARIA
