CITARI PROVENIND DIN ARTICOLE PUBLICATE IN REVISTE STIINTIFICE CARE AU UN SCOR RELATIV DE INFLUENTA MAI MARE SAU EGAL CU 0,5, CARE CITEAZA ARTICOLE STIINTIFICE PUBLICATE DE CRISTINEL MORTICI

Numarul publicatiei care citeaza	Referinta bibliografica a publicatiei care citeaza	si
\multicolumn	C. Mortici, An extension of the Szasz-Mirakjan operators Analele Stiintifice ale Universitatii Ovidius Constanta, 17 (2010), no. 1, 137-144	
1	C. Bardaro, I. Mantellini, A quantitative asymptotic formula for a general class of discrete operators Computers and Mathematics with Applications, 60 (2010), no. 10, 2859-2870	1.07628
	C. Mortici, Best estimates of the generalized Stirling formula Applied Mathematics and Computation, 215 (2010), no. 11, 4044-4048	
2	C.-P. Chen, Approximation formulas for Landau's constants Journal of Mathematical Analysis and Applications, 387 (2012), no. 2, 916-919	1.11491
3	C.-P. Chen, Some properties of functions related to the gamma, psi and tetragamma functions Computers and Mathematics with Applications, 62 (2011), no. 9, 3389-3395	1.07628
	C. Mortici, The asymptotic series of the generalized Stirling formula Computers and Mathematics with Applications, 60 (2010), no. 3, 786-791	
4	T. Buric, N. Elezovic, Bernoulli polynomials and asymptotic expansions of the quotient of gamma functions Journal of Computational and Applied Mathematics, 235 (2011), no. 11, 3315-3331	0.88665
	C. Mortici, New approximation formulas for evaluating the ratio of gamma functions Mathematical and Computer Modelling, 52 (2010), no. 1-2, 425-433	
5	T. Buric, N. Elezovic, Bernoulli polynomials and asymptotic expansions of the quotient of gamma functions Journal of Computational and Applied Mathematics, 235 (2011), no. 11, 3315-3331	0.88665
	C. Mortici, A new method for establishing and proving accurate bounds for the Wallis ratio Mathematical Inequalities and Applications, 13 (2010), no. 4, 803-815	
6	T. Buric, N. Elezovic, Bernoulli polynomials and asymptotic expansions of the quotient of gamma functions Journal of Computational and Applied Mathematics, 235 (2011), no. 11, 3315-3331	0.88665
	C. Mortici, Monotonicity properties of the volume of the unit ball in R(n) Optimization Letters, 4 (2010), no. 3, 457-464	
7	C. Berg, H. L. Pedersen, A one-parameter family of Pick functions defined by the gamma function and related to the volume of the unit ball in n-space Proceeding of the American Mathematical Society, 139 (2011), no. 6, 2121-2132	1.06056

C. Mortici, Improved convergence towards generalized Euler-Mascheroni constants Applied Mathematics and Computation, 215 (2010), no. 9, 3443-3448		
8	V. Lampret, A double inequality for a generalized Euler constant function Journal of Mathematical Analysis and Applications, 381 (2011), no. 1, 155-165	1.11491
9	C.-P. Chen, H. M. Srivastava, L. Li, S. Manyama, Inequalities and monotonicity properties for the psi (or digamma) function a Integral Transforms and Special Functions, 22 (2011), no. 9, 681-693	0.56988
10	C.-P. Chen, Approximation formulas for Landau's constants Journal of Mathematical Analysis and Applications, 387 (2012), no. 2, 916-919	1.11491
C. Mortici, Estimating the Somos' quadratic recurrence constant Journal of Number Theory, 130 (2010), no.12, 2650-2657		
11	M. D. Hirschhorn, A note on Somos' qudratic recurrence constant Journal of Number Theory, 131 (2011), no. 11, 2061-2063	0.80912
C. Mortici, New bounds for a convergence of DeTemple Journal of Sciences and Arts, 10 (2010), no. 2, 239-242		
12	C.-P. Chen, Approximation formulas for Landau's constants Journal of Mathematical Analysis and Applications, 387 (2012), no. 2, 916-919	1.11491
13	C.-P. Chen, Some properties of functions related to the gamma, psi and tetragamma functions Computers and Mathematics with Applications, 62(2011), 3389-3395	1.07628
C. Mortici, Product approximation via asymptotic integration American Mathematical Monthly, 117 (2010), no. 5, 434-441		
14	C.-P. Chen, Approximation formulas for Landau's constants Journal of Mathematical Analysis and Applications, 387 (2012), no. 2, 916-919	1.11491
15	C.-P. Chen, Inequalities for the Lugo and Euler-Mascheroni constants Applied Mathematics Letters, DOI: 10.1016/j.aml.2011.09.076	0.74689
16	C.-P. Chen, H. M. Srivastava, New representations for the Lugo and Euler Mascheroni constants Applied Mathematics Letters, 24 (2011), no. 7, 1239-1244	0.74689
17	C.-P. Chen, Some properties of functions related to the gamma, psi and tetragamma functions Computers and Mathematics with Applications, 62 (2011), no. 9, 3389-3395	1.07628
C. Mortici, The proof of Muquattash-Yahdi conjecture Mathematical and Computer Modelling, 51 (2010), no. 9-10, 1154-1159		
18	C.-P. Chen, Approximation formulas for Landau's constants Journal of Mathematical Analysis and Applications, 387 (2012), no. 2, 916-919	1.11491

19	C.-P. Chen, Some properties of functions related to the gamma, psi and tetragamma functions Computers and Mathematics with Applications, 62 (2011), no. 9, 3389-3395	1.07628
C. Mortici, On new sequences converging towards the Euler-Mascheroni constant Computers and Mathematics with Applications, 59 (2010), no. 8, 2610-2614		
20	C.-P. Chen, H. M. Srivastava, L. Li, S. Manyama, Inequalities and monotonicity properties for the psi (or digamma) function a Integral Transforms and Special Functions, 22 (2011), no. 9, 681-693	0.56988
21	C.-P. Chen, Approximation formulas for Landau's constants Journal of Mathematical Analysis and Applications, 387 (2012), no. 2, 916-919	1.11491
C. Mortici, A new Stirling series as continued fraction Numerical Agorithms, 56 (2011), no. 1, 17-26		
22	C.-P. Chen, Approximation formulas for Landau's constants Journal of Mathematical Analysis and Applications, 387 (2012), no. 2, 916-919	1.11491
23	C.-P. Chen, Some properties of functions related to the gamma, psi and tetragamma functions Computers and Mathematics with Applications, 62 (2011), no. 9, 3389-3395	1.07628
C. Mortici, New approximations of the gamma function in terms of the digamma function Applied Mathematics Letters, 23 (2010), no. 1, 97-100		
24	H. Sevli, N. Batir, Complete monotonicity results for some functions involving the gamma and polygamma functions Mathematical and Computer Modelling, 53 (2011), no. 9-10, 1771-1775	0.88819
25	C.-P. Chen, Inequalities for the Lugo and Euler-Mascheroni constants Applied Mathematics Letters, DOI: 10.1016/j.aml.2011.09.076	0.74689
26	C.-P. Chen, H. M. Srivastava, New representations for the Lugo and Euler-Mascheroni constants Applied Mathematics Letters, 24 (2011), no. 7, 1239-1244	0.74689
27	C.-P. Chen, H. M. Srivastava, New representations for the Lugo and Euler-Mascheroni constants.II Applied Mathematics Letters, 25 (2012), no. 3, 333-338	0.74689
28	C.-P. Chen, Some properties of functions related to the gamma, psi and tetragamma functions Computers and Mathematics with Applications, 62 (2011), no. 9, 3389-3395	1.07628
C. Mortici, S. Sburlan, A coincidence degree for bifurcation problems Nonlinear Analysis. Theory, Methods and Applications, 53 (2003), no. 5, 715-721		
29	In-Sook Kim, A solvability of bifurcation problems Nonlinear Analysis. Theory, Methods and Applications, 63 (2005), no. 5-7, e1809-e1816	0.87733

C. Mortici, Ramanujan formula for the generalized Stirling approximation Applied Mathematics and Computation, 217 (2010), no. 6, 2579-2585		
30	H. Sevli, N. Batir, Complete monotonicity results for some functions involving the gamma and polygamma functions Mathematical and Computer Modelling, 53 (2011), no. 9-10, 1771-1775	0.88819
C. Mortici, New improvements of the Stirling formula Applied Mathematics and Computation, 2 (2010), 699-704		
31	J. Choi, H. M. Srivastava, Asymptotic formulas for the triple gamma function by means of its integral representation Applied Mathematics and Computation, 218 (2011), no. 6, 2631-2640	0.60559
C. Mortici, Completely monotonic functions associated with the gamma function and applications Carpathian Journal of Mathematics, 2 (2009), 186-191		
32	H. Sevli, N. Batir, Complete monotonicity results for some functions involving the gamma and polygamma functions Mathematical and Computer Modelling, 53 (2011), no. 9-10, 1771-1775	0.88819
C. Mortici, An ultimate extremely accurate formula for approximation of the factorial function Archiv der Mathematik (Basel), 1 (2009), 37-45		
33	H. Sevli, N. Batir, Complete monotonicity results for some functions involving the gamma and polygamma functions Mathematical and Computer Modelling, 53 (2011), no. 9-10, 1771-1775	0.88819
C. Mortici, Approximation methods for solving the Cauchy problem Czechoslovak Mathematical Journal, 3 (2005), 709-718		
34	A. Aslanov, I. Abu-Alshaikh, Further developments to the decomposition method for solving singular initial-value problems Mathematical and Computer Modelling, 48 (2011), no. 5-6, 700-711	0.88819
C. Mortici, New sharp bounds for the gamma and digamma functions, Analele Stiintifice ale Universitatii A. I. Cuza Iasi Ser. N. Mat., 57 (2011), no. 1, 57-60
